"Smarter Balanced" Pilot Testing for 5th and 6th Grade: Rosedell has been selected to participate in a computer-based pilot test launched by the Smarter Balanced Assessment Consortium. We will be joining over 1100 schools across California in this pilot that will eventually replace the state's STAR testing in 2015. The pilot is expected to be a key milestone in the effort to overhaul the state's testing system. Rosedell has been assigned English Language Arts sections for 5th and 6th grade. The new computer test items are aligned to the new Common Core State Standards and include selected response, constructed response and performance tasks. Taking part in the pilot tests will not produce scores for the students, schools or districts, but allows students and educators to experience the basic operation of the Smarter Balanced test administration system and provide feedback. Each 5/6th grade student at Rosedell will take three tests over a period of a week. The dates for the pilot are the following: 5th grade (4/8-4/12), 6th grade (3/19-3/26).
